EXPERIENCE

Horror Studies Working Group — Content Creator

Pittsburgh, PA | Nov 2024 - May 2025

- Developed content for the Horror Matters newsletter, including event summaries, interviews, and research-based stories that align with the group's mission.
- Collaborated with the chief editor of the newsletter to ensure engaging and relevant material for publication.
- Conducted interviews with scholars, creators, and community members, and transcribed them for inclusion in the newsletter.
- Refined articles through iterative revisions based on editor and reader feedback, ensuring clarity, engagement, and alignment with audience needs.

Adobe — Student Ambassador

Pittsburgh, PA | January 2023 - May 2023

- Created and promoted brand-focused digital assets, driving increased engagement and user adoption of Adobe Creative Cloud.
- Designed and executed visual marketing campaigns targeting students, clubs, and faculty, resulting in measurable increases in software activations.
- Utilized Adobe Photoshop, Illustrator, InDesign, and Express for creative design, layout optimization, and UX prototyping.
- Independently managed and executed diverse design projects and assignments, applying creative problem-solving and iterative workflows to deliver high-quality results

Simcoach Games — Design Intern

Pittsburgh, PA | June 2022 - July 2022

- Conceptualized and prototyped UI/UX assets for mobile game projects using Procreate, Canva, Autodesk Maya, and Krita.
- Applied rapid prototyping and iteration methods to support agile design processes.
- Improved workflow efficiency by adopting new design tools and coding techniques, ensuring on-time delivery of milestones.
- Leveraged design thinking and problem-solving to evaluate solutions and improve user interaction flows.
