## EXPERIENCE

---

### Warehouse Specialist

May 2026 – Present

*Zimmer Biomet Apex Surgical*

*Pittsburgh, PA*

- Managed return processing of DI and CI SOL implants and surgical instruments in ERP/SMS systems, ensuring accurate inventory tracking and documentation.
- Performed quality assurance checks on surgical trays, identified missing or damaged instruments, and coordinated resolutions with sales and operations teams.
- Maintained warehouse inventory through restocking, bin mapping validation, handheld scanning, and implant kit verification to support accurate order fulfillment.
- Supported shipping, receiving, packing, labeling, and delivery of medical inventory while collaborating cross-functionally with supply chain, warehouse, and asset teams.
- Utilized ERP/MRP software and handheld technology to issue, monitor, loan, and fulfill inventory orders in a fast-paced logistics environment.

### Content Creator

Nov 2024 – May 2025

*Horror Studies Working Group*

*Pittsburgh, PA*

- Developed content for the Horror Matters newsletter, including event summaries, interviews, and research-based stories aligned with the group's mission.
- Collaborated with the chief editor to ensure engaging and relevant material for publication.
- Conducted interviews with scholars, creators, and community members, and transcribed them for inclusion in the newsletter.
- Refined articles through iterative revisions based on editor and reader feedback, ensuring clarity, engagement, and alignment with audience needs.

### Student Ambassador

January 2023 – May 2023

*Adobe*

*Pittsburgh, PA*

- Created and promoted brand-focused digital assets, driving increased engagement and user adoption of Adobe Creative Cloud.
- Designed and executed visual marketing campaigns targeting students, clubs, and faculty, resulting in measurable increases in software activations.
- Utilized Adobe Photoshop, Illustrator, InDesign, and Express for creative design, layout optimization, and UX prototyping.
- Independently managed and executed diverse design projects, applying creative problem-solving and iterative workflows to deliver high-quality results.

### Design Intern

June 2022 – July 2022

*Simcoach Games*

*Pittsburgh, PA*

- Conceptualized and prototyped UI/UX assets for mobile game projects using Procreate, Canva, Autodesk Maya, and Krita.
- Applied rapid prototyping and iteration methods to support agile design processes.
- Improved workflow efficiency by adopting new design tools and coding techniques, ensuring on-time delivery of milestones.
- Leveraged design thinking and problem-solving to evaluate solutions and improve user interaction flows.

### Packer

May 2024 – Aug 2024

*Clarity Connect*

*Pittsburgh, PA*

- Assembled, inspected, and prepared packages to meet shipment specifications with a high standard of accuracy.
- Organized outgoing product workflow, ensuring each box was correctly sealed, labeled, and loaded onto pallets for efficient distribution.
- Handled and transported packages ranging from 10 to 60 lbs., maintaining safe and orderly movement of goods throughout the facility.
- Operated a pallet jack to relocate large quantities of boxed products, keeping the workspace structured and hazard-free.
- Secured pallets with precise wrapping techniques to guarantee product stability and integrity during shipment.

## ACTIVITIES & LEADERSHIP

---

### UX Design @ Pitt

2025 - 2026

*Member*
